I was given a camera on two occasions; one for Christmas when I was fourteen and the other when I turned 49! Using these gifts, I have been taking pictures, whether it is for family, friends or landscape for a great many years! My favourite subject is capturing the beauty in nature; it is often inspirational and spiritual for me. Raised with the nehiyaw language but not speaking it, I can recall the words or phrases my community would use. I see these words, on occasion, in the sunrise, the land, the sky. I am all the richer by sharing these scenes.

**4** **Carvings by Ken**  
 Ken Nelson 306-466-2300

I've been carving wood about 40 some odd years. I've used a variety of different types of wood, but like using local wood such as birch & poplar but will try any other type. I prefer carving wildlife and western lifestyle themes. I have been commissioned for retirement, birthday and special gifts. One special commission was a wedding cake top. Some of my carvings are scattered in Canada, and some in Europe and one in Australia. Over the years, I have been an active member of Prairie Sculptors of Saskatchewan and the Kyla Art Group of Prince Albert. I've decided to join 12-40 so I can work with other local artists.
